

## 3211 Series Tripod Jack 5 Ton Capacity (4.5 tonnes)

The three 3211 Series jacks are designed around a common cylinder, pump and reservoir configuration that is compatible with four tripods. The cylinder, pump and reservoir can be removed from one 3211 Series tripod and installed in another, allowing three roll under heights.

All jacks in the 3211 Series are constructed “better than they have to be”, and rigorously tested.

### Standard High Quality Features:

- Steel Reservoir
- Quick rising threaded extension screw with steel lock nut
- Durable powder coat finish
- Tilt and roll mobility

### Standard Tests:

- Jack is set to relieve at 110% of rated load
- Structurally tested at a 150% of rated load

### Seal Kits:

- Pump/Reservoir – 324-V-31
- Ram/Cylinder – 324-3211K
